UV Filter(UV) · UV filter absorbs ultraviolet rays,cuts haze. · No effect on exposure and color temperature. · Protects front lens element of master lens.	EFL-77UV	●								
	EFL-82UV		●							
	EFL-95UV			●	●	●				
	EFL-107UV					●	●	●		
	EFL-127UV								●	●
Skylight Filter(SL) · Skylight filter ideal for clear days reduces blue-green look in shadow areas. · No effect on exposure and color temperature. · Protect front lens element of master lens.	EFL-77SL	●								
	EFL-82SL		●							
	EFL-95SL			●	●	●				
	EFL-107SL					●	●	●		
	EFL-127SL								●	●
ND Filter(ND) · ND (Neutral density) filter reduces the light of all wavelengths that enter a lens. · Allows picture talking of bright scenes with wider lens apertures. · ND2 reduces light by 2/1, ND4 by 1/4,ND8 by 1/8. · No effect color temperature.	EFL-77ND2	●								
	EFL-82ND2		●							
	EFL-95ND2			●	●	●				
	EFL-107ND2					●	●	●		
	EFL-127ND2								●	●
	EFL-77ND4	●								
	EFL-82ND4		●							
	EFL-95ND4			●	●	●				
	EFL-107ND4					●	●	●		
	EFL-127ND4								●	●
	EFL-77ND8	●								
	EFL-82ND8		●							
	EFL-95ND8			●	●	●				
	EFL-107ND8					●	●	●		
	EFL-127ND8								●	●
Cross Filter · Cross filter is used to enhance the beauty of a shot by creating a"Cross" effect around a point of light or spectral highlight.Cross filter can produce from four to as many as sixteen star points and are commonly used in concerts or outdoor productions.	EFL-77CS	●								
	EFL-82CS		●							
	EFL-95CS			●	●	●				
	EFL-107CS					●	●	●		
	EFL-127CS								●	●
Cross Screen Filter(CS) · 4 cross.	EFL-77SN	●								
	EFL-82SN		●							
Snow Cross Filter(SN) · 6 cross	EFL-95SN			●	●	●				
	EFL-107SN					●	●	●		
Sunny Cross Filter(SU) · 8 cross	EFL-127SN								●	●
	EFL-77SU	●								
	EFL-82SU		●							
	EFL-95SU			●	●	●				
	EFL-107SU					●	●	●		
	EFL-127SU								●	●
Soft Focus Filter(SF) · Soft focus filter produces an overall softness while creating a luminous glow to highlights.	EFL-77SF	●								
	EFL-82SF		●							
	EFL-95SF			●	●	●				
	EFL-107SF					●	●	●		
	EFL-127SF								●	●
Polarizing Filter(PL) · Polarizing filter reduces polarized light reflections from glass and water surfaces or to improve color saturation. · Enhances picture quality by blocking harmful reflected light. · Circular type	EFL-77PL	●								
	EFL-82PL		●							
	EFL-95PL			●	●	●				
	EFL-107PLA					●	●	●		
	EFL-127PL								●	●

※An attached ring (EFL-107-R) is required to install a filter to the threaded lens barrel of the HA16x6.3 lens. In this case, the lens hood has to be removed
